

Colours

Pratic presenta un ampio portfolio colori che si ispira alle nuance della natura per creare una raffinata armonia in qualsiasi contesto ambientale ed architettonico.

Desaturazione ed eterogeneità le caratteristiche dei pigmenti scelti, che conferiscono armonia alle strutture da esterno inserite nell'ambiente circostante. Cromie sapientemente scelte in collaborazione con prestigiosi studi di architettura e di design, attenti alle nuove tendenze.

PERFORMANCES

L'innovativa linea di verniciatura Pratic offre eccellenti prestazioni di tenuta del colore ed elevati standard anti-aging: una soluzione eco-friendly per ridurre al minimo l'impatto ambientale contribuendo alla tutela della natura.

Il pre-trattamento Qualicoat Seaside di serie per tutti gli 8 colori AkzoNobel ed i 30 colori Tiger riduce notevolmente il rischio corrosione dalla salsedine e mantiene inalterate le caratteristiche della struttura nel tempo.

Inoltre, il pre-trattamento Qualicoat Seaside unito alle prestazioni delle polveri Tiger Qualicoat in classe 2 garantisce:

- maggiore resistenza ai raggi UV e quindi maggiore brillantezza del colore nel tempo
- maggiore resistenza alla salsedine, utile nelle zone vicine al mare
- maggiore resistenza all'umidità
- facilità di manutenzione e di pulizia.

Di fatto Qualicoat classe 2 raddoppia la durata di brillantezza del colore rispetto a Qualicoat classe 1.

UNA LINEA DI VERNICIATURA ALL'AVANGUARDIA AD IMPATTO AMBIENTALE ZERO

- 2 anni di progettazione.
- Elevata tenuta del colore e polveri con alti standard anti-aging.
- Impatto ambientale zero:
 - no solventi e composti volatili organici
 - polveri con un grado di recuperabilità del 100%
 - impianto dotato di un depuratore che recupera il 97% dell'acqua utilizzata.

Pratic presents a wide portfolio of colours inspired by the tints of nature to create a refined harmony in each environmental and architectural context. Desaturation and heterogeneity are the features of the chosen tones, which give harmony to the outdoor structures placed in the surrounding space. The colors have been skillfully chosen in collaboration with prestigious architects and designers, oriented to the new trends.

PERFORMANCES

The innovative Pratic coating line guarantees excellent colour endurance and anti-aging performances and is intended as eco-friendly to respect the environment. The regular Qualicoat Seaside pre-treatment for all 8 AkzoNobel colours and for the 30 Tiger colours reduces considerably the risk of corrosion presented in the areas rich in salt, maintaining unaltered the characteristic of the structure over the time.

In addition, the pre-treatment Qualicoat Seaside combined with the performance of the Tiger Qualicoat powders class 2 assures:

- higher UV-rays resistance that means an higher endurance over time of the colour's brightness
- higher resistance to salinity, an important feature for areas close to the beach
- higher resistance to humidity
- easy maintenance and cleaning.

Factual data, Qualicoat class 2 double the duration of color brilliance over the time than the Qualicoat class 1.

A NEW ECO-FRIENDLY AND FOREFRONT COATING LINE TO RESPECT THE ENVIRONMENT

- 2 years of planning
- Excellent colour endurance and anti-aging performance powder.
- Zero environmental impact:
 - no solvents or volatile organic compounds
 - polyester powders 100% recyclable
 - line completed by a purification plant that allows to recycle 97% of the used water.

AVVERTENZE

Riproduzione esemplificativa delle colorazioni disponibili, non si garantisce la perfetta corrispondenza con il prodotto finito.

Il presente depliant è da considerarsi come strumento illustrativo: per la scelta della finitura e la visione del risultato effettivo consultare i campioni a disposizione dei rivenditori.

La dicitura "ca. RAL" si riferisce al RAL che si avvicina maggiormente alla colorazione indicata.

Le parti plastiche dei prodotti sono disponibili solo nelle colorazioni riportate e non possono essere verniciate.

Verificare la disponibilità delle parti plastiche e delle colorazioni Akzo per i modelli di vostro interesse.

Le colorazioni Tiger o colorazioni non presenti nel depliant, a scelta del cliente (RAL ALTRO), hanno un costo supplementare.

WARNING

These are sample colours, perfect correspondence with the end product is not ensured.

This is a product information leaflet, for the final choice of the finishing and the vision of a real result look at the samples available at the dealers.

"Ca. RAL" refers to the most similar RAL respect the indicated colour.

The plastic parts of the products are only available in displayed colours and cannot be painted.

Verify the availability of the plastic parts and the Akzo colours for the model of interest to you.

Tiger colours or others not included in the folder, selected by the customer (RAL ALTRO), will require an additional cost.
